LA150

Professional KTV Speaker

www.acmaudio.com

- Hexagonal cabinet design
- Protective steel grille for woofer and tweeters
- Integral high frequency driver overload protection
- Strong construction of acoustically inert, high density MDF
- High power output, low distortion sound quality
- Standard mounting style for maximum flexibility and reliability when installing
- Multi dispersion controlling, wide sound field reproducing

Technical Specification:

Freq. Range (-10dB) :	40Hz ~ 18kHz
Axial Sensitivity (1W/1m) :	91dB
Rated power (RMS) :	120W
Music Power (MAX) :	240W
Nominal Impedance :	8 ohm
LF Transducer :	10"
HF Transducer :	2 x 3"
Machine Dimensions (WxHxD) :	512mmx302mmx285mm
Package Dimensions (WxHxD) :	690mmx345mmx610mm
Net Weight (1PCS) :	11kg
Shipping Weight (1PAIR) :	26kg
